Suspicious login detection

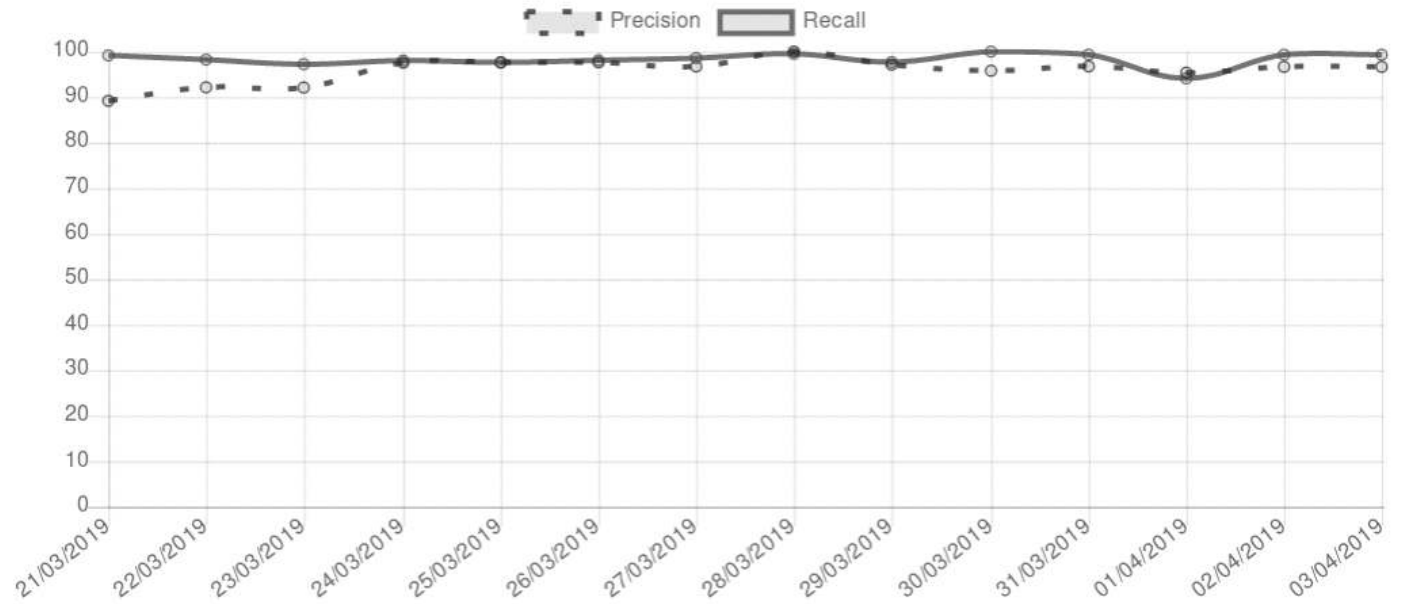

The suspicious login app is enabled on this instance. It will keep track of IP addresses users successfully log in from and build a classifier that warns if a new login comes from a suspicious IP address.

Training data statistics

So far the app has captured 258058 logins (including client connections), of which 591 are distinct (IP, UID) tuples.

Classifier model statistics

During evaluation, the latest model (trained 18 hours ago) has shown to capture 99.315% of all suspicious logins (recall), whereas 96.667% of the logins classified as suspicious are indeed suspicious (precision). Below you see a visualization of historic model performance.

system administrator cleared the history of the conversation
system administrator promoted you to moderator

- Leon Green
Hi team, I'd love to discuss the Subrana project - perhaps we split in separate rooms? 10:14 PM
 - Christine Schott
Excellent ideal I can create breakout rooms, want me to select who goes where, or should I let you all choose? 10:14 PM ✓
 - Sandra McKinney
I think we can pick by ourselves, if you let Talk split the room automatically I might end up having to talk to Leon 😊 10:16 PM
 - Leon Green
10:17 PM
- Should Sandra be forced to talk to me?**

Add to a project

Description

Deck 1.0.0 is here: what's new?

Beyond the complete rewrite of the frontend, a lot of collaboration and productivity features have been added. Now it is easier for a team to manage workload and for managers to get a picture of how's everything going at any time. You can now:

- + Add your tasks to cards and put them in order
- Write down additional notes in markdown
- Assign labels for even better organization
- Share with your team, friends or family
- Integrates with the Circles app!
- Attach files and embed them in your markdown description
- Discuss with your team using comments
- Keep track of changes in the activity stream
- Get your project organized

Thinking about project Subrana...

yeah those business card designs look nice!

I'm super excited to join the Fediverse!

Office

Meeting notes

- 28 February 2021, via Nextcloud Talk
- Sandra, Mickey, Nina, Carl

Tasks

- Prepare for marketing campaign
- Put together a communication strategy
- Sync plan with community team

Agenda

- Successes
- Status overview
- Challenges and risks
- TODO's for next week

Recap from last meeting

•

Discussion

- Nina thinks we should re-think our approach to snacks
- Should we try to approach press longer in advance? *Unclear, needs more input.*
- ...

Subject, date

Describe *meeting goals*

Present:

- person 1
- Person 2

Project Subrana

Edit

Christine Schott seconds ago

Welcome to your new collective

Come, organize and build shared knowledge!

Invite new people to the collective

Whether you want to add your friends or whole groups, follow the "manage members" link that you find in the action menu inside the collectives list on the left.

Bring life to your collective

Create pages and share your thoughts that really matter. Whether it's a shared knowledge repository for the community or a handbook for your organisation – Collectives works!

Edit this landing page to feel like home

Push the pencil button to get started! 

Also good to know

- Multiple people can edit the same page simultaneously.
- Link local pages by selecting text and choosing "link file". Drag & drop from page list into the editor also works.
- Add templates for future subpages ("Show templates" -> "Add template for subpages")
- Find out more about this App in the [documentation](#).
- Ask [the community](#) for help in case of questions.

Nextcloud Hub

Nextcloud Hub

Welcome to Nextcloud Hub, your self-hosted collaboration solution.

Nextcloud Hub is the open source file sync and share software for everyone from individuals to large enterprises and service providers. Nextcloud provides a safe, secure and compliant file sync and share solution on servers you control.

With Nextcloud Hub you can:

- Sync and share and access all your files and documents from all your devices.
- Communicate with other via chat, audio or video calls.
- Manage access and share your calendars
- View and share you photos and media files
- Access your emails
- Manage your contacts
- Edit your documents

You can all of this in the web interface, via you desktop or your Android and iOS devices.
